Maple Sugar Makers Have Had a Very
Good Season.

One of the best yields of maple sugar
reported in town is by Harry L. Wash-
burn, who made very nearly 1,200 pounds
from 325 buckets. Henry W. Davis re-
ports a yield of 400 gallons of syrup
from 1,100 buckets. Clayton L. Sanders
340 gallons from 750 buckets. Robert E.
Burnett 220 gallons from 385 buckets,
each being practically a yield of three
pounds of sugar to the bucket. Local
producers are inclined to call the season
now closing the best sugar season in re-
cent years, with a rather pronounced
advantage in favor of the early orchards,
or those facing the south or southwest.

To Mrs. C. S. Hopkins of Waterbury

from her son, Wilfred C. Hathaway, for-
merly a Barre boy, who left home April
17, 1917, and enlisted:

U. S. A., C. T. Moldegaard.
Dear Mother: Just a few lines to let
you know I received your letters of Feb.
3 and 10. I was very glad to hear from
you. I received a letter from Pat also.
I have been sailing around quite a lot.
We have been to Portugal twice. I am
somewhere in France now. We are ex-
pecting to stay on this side until after
the war. I am not going to write to
Pat this time, but will next time we
come to France.

I should like to see Charles nowadays.
Say, this is how warm it was the 25th
of January where we were. We were on
deck in our ship's sleeves and were buy-
ing oranges that were picked the same
day.

There are some nice girls here in
France, but I think I like the ones at
home.

Will close with love to all. Wilfred.

10,000 OFFICERS ARE AVAILABLE

Completed Their Courses of
Training To-
day

WILL BE CALLED TO
SERVICE AS NEEDED

They Will Not Be Graduated
or Given Commissions
Now

Washington, D. C., April 19.—Ten
thousand or more student officers who to-
day have completed their course of train-
ing at national army cantonments and
National Guard camps, will not be gradu-
ated and given commissions, but will
be placed on an eligibility list, from
which in order of their ratings they will
be commissioned and called to service as
the army needs them.

The men are exclusively non-commis-
sioned officers and privates of the na-
tional army, National Guard, and regu-
lar army or students from colleges hav-
ing military courses in the curriculum.

Until called to duty as officers, these
men will wear white brassards on their
arms as an insignia of their status. They
will be called to the service in small
groups. Consequently it is impossible
to present to-day any list of "graduates,"
as was done when the two previous se-
ries of camps closed.

Any man who has remained in the
camps until to-day is assured of a place
on the eligible list.

Late reports to the war department
bear out the estimate that 60 per cent of
the men admitted will complete the
course.

Elimination of unfit students has been
proceeding practically since the opening
of the camps. Physical examinations of
those who passed all other tests began
on April 9.

In each division school, students drawn
from the division organizations will be
placed in an "eligible list for infantry,"
or eligible list for field artillery," ac-
cording to a war department memoran-
dum. Students from other sources will
be placed on separate lists for the same
arms. It is the purpose of the war de-
partment to return the new officers, so
far as is practicable, to the units from
which they were taken.

WORCESTER

Herman Curtis and Jerry Bolton Write
of Life on Warships.

Mr. and Mrs. C. N. Curtis have re-
ceived the following letter from their
son, Herman R. Curtis, who is on the
U. S. S. Georgia, in southern waters.
The letter is dated April 4.

Received your letter, which I was cer-
tainly very glad to get, and will now
try to answer it, as my day's work is
done. I have received all your letters
since they began coming straight to this
ship, but when I was over in Norfolk
I only got about half of them, but you
see I was being transferred around so
much my mail didn't come good at all.
I will tell you what I can about the
ship and my duties here. This ship is
a coal burner, but much easier to fire
than the Wisconsin and better in every
way. I like the ship and there is a very
good bunch of fellows in the engineering
force, but I don't know much about the
rest.

When we are under way, we have four
hours on and eight hours off, or if I
have the watch from 8 o'clock until 12.
I have that in the morning and again at
night, but nothing between watches, only
to wash up and sleep, so you see the
navy isn't so bad after all.

The only thing I don't like is when
we have inspection for bugs or some-
thing like that, but that isn't so bad
after all.

The hottest it has been since I have
been here is 140, but it sometimes gets
to 160 in the summer, so they say.

I received the cards a little while ago
and will fix them up as soon as I can.
Herman.

Mr. and Mrs. P. G. Bolton have also
received a letter from their son, Jerry
Bolton, which was written on board the
U. S. S. Florida, March 20.

Just a few lines to let you know I
got your letter dated March 3, to-day
also one from Jessie. As ever, was glad
to hear from you all once more. Have
not been doing much to-day. We let
the boilers off this morning and went out
to get practice so when we see a Ger-
man ship or submarine we can knock
the stuffing out of it.

I got quite a lot of mail to-day, 15
postcards and four letters. Wasn't that
pretty good? Mrs. Carroll Wheeler sent
me a letter and all of the scholars in
the Wheeler school sent cards and some
of them letters also. I cannot write
them all, but will write a nd thank Mrs.
Wheeler and she can thank the rest.

I hear I am going to get mess cook
next quarter. Each one has to have
three months in the mess cooking, so I
might as well take it now as ever. I
don't believe I will like it, though. How
is Mrs. Gray? Hope she is gaining.

Give my kind regards to all the neigh-
bors, and tell Jessie I will write her
later. I am in the best of health. Jerry.

PLAYED OUT LAWYER LOOKS LIKE NEW

All His Friends Pleased

For a long time he kept the secret of
the wonderful change to restored health
and recovery from nervous breakdown,
but at last because of the help it might
be to his friends he thought it only fair
to tell them, and now they are all like
him, have "come back" and feel like do-
ing things.

He took Phosphate and Iron and it
took hold of him immediately, he says he
felt better "right off the reel" and you
never saw a more thankful and pleased
man, he cannot say enough in praise of
Phosphated Iron. He says it seemed as
if his whole system just craved the
Iron, it was absorbed so quickly, the
color came back to his cheeks, his step
had that old time boy swing and spring,
while as for his nerves, the Phosphates
got right to work, cleared up the cob-
webs and befuddled brain, so he could
think better and act quicker, his judg-
ment was right again, he had decision
that he lacked for years, no wonder he
is a pleased booster of Phosphated Iron.

Mr. Professional Man or Woman, Mr.
Office Man or Bill Clerk or Stenographer
who is all in and feels that he is not
sick and he is not well, but who knows
he is not right, Phosphated Iron is just
what you need, it will tide you over, put
you right, you will feel "on the job"
and work will be a pleasure.

To insure physicians and their pa-
tients getting the genuine Phosphated
Iron we have put in capsules only, do
not take pills or tablets. Insist on cap-

GRAY HAIR BECOMES DARK AND BEAUTIFUL

Try Grandmother's Old Favorite Recipe
of Sage Tea and Sul-
phur

Almost everyone knows that Sage Tea
and Sulphur, properly compounded,
brings back the natural color and luster
to the hair when faded, streaked or gray.
Years ago the only way to get this mis-
ture was to make it at home, which is
messy and troublesome.

Nowadays we simply ask at any drug
store for "Wyeth's Sage and Sulphur
Compound." You will get a large bottle
of this old-time recipe improved by the
addition of other ingredients, at very
little cost. Everybody uses this prepara-
tion now, because no one can possibly
tell that it darkened your hair, as it
does it so naturally and evenly. You
dampen a sponge or soft brush with it
and draw this through your hair, taking
one small strand at a time; by morning
the gray hair disappears, and after an-
other application or two, your hair be-
comes beautifully dark, thick and glossy
and you look years younger. Wyeth's
Sage and Sulphur Compound is a deli-
cious toilet requisite. It is not intended
for the cure, mitigation or prevention of
disease.—Adv.

Maybe you've said to your friends,
"This 'Save on wheat' campaign is a great thing; it's
teaching people that other grains—corn, barley and
rye—are just as palatable as wheat and some are more
nutritious."

A man who has always had his clothes

why he didn't apply that to clothes and save there.

You can get in Hart Schaffner & Marx

COAL

In a spirit of co-operation with the National Authorities who are doing
their utmost to avert a repetition of another such winter as we have just been
through and to safeguard the people against the possibility of another fuel
famine and believing it a patriotic duty to assist in every way possible to ac-
complish this result, the D. M. Miles Coal Co., acting upon the suggestion of
the New England Coal Dealers' Association, feel it their duty to give to the
coal-purchasing public of Barre all the information they can relative to the
conditions under which coal can be secured for the coming year.

The retail distribution of coal in the fiscal year beginning April 1, 1918,
is to be governed in general by the regulations issued by the United States
Fuel Administration, supplemented by the modifications, additions and inter-
pretations of the state administrator and local fuel board.

Application for the full amount desired under the fuel administration regu-
lations should be made as soon as possible.

File your order with the coal company that can make deliveries as proven
by its record of the past year.
